Dear Readers/ Research Scholars,

Research is a special branch of knowledge. The other branches of knowledge explain the things which are already in existence. Whereas research always explores new inventions and enriches the knowledge with its originality. A true researcher will always strive to make his/her mark with the new findings. His/her motto will be “to strive, to seek, to find, but not to yield”. I wish that the new generation of researchers will follow this motto and try to prove their mettle.

It gives me immense pleasure in sharing the happiness that IJSIMR has got good impact factor from Scientific Journal Impact Factor (SJIF), Morocco.
