Dear Readers / Research Scholars,

Co-operation is more essential in every walk of life. Whether it is in the field of Research or any other one, One needs Cooperation from others. Without proper Cooperation one cannot fulfill his mission. The word Cooperation means ‘working together, helping with each other.’ This mutual help enables a person to proceed further in his endeavour. Particularly in the field of research Cooperation is more needed. Cooperation between the guide and the Researcher, Cooperation between the Scholars, Cooperation between the Authorities and Research scholars, smoothens the way of success. So my dear Readers and Research Scholars let us Cooperate with each other and make our attempt successful.

**“For any success in life cooperation is an essential tool
Without that one will be sinking in the middle of the pool”.**
