
A Special Feature: Stalwarts of Mathematics

Keldibay Alymkulov
*Professor,
Institute of the Fundamental and Applied
Researches,
Osh State University,
Kyrgyzstan.*

Keldibay Alymkulov, Doctor of physical-mathematical sciences from mathematical institute of Academy Sciences of Soviet Republic (1991, Moscow) and his adviser was academician of Russian Academy of Science D.V. Anasov. His field of interest is asymptotical theory of differential equations, nonlinear oscillations, theory of bifurcation. He published more than 150 research articles. This time he is director of the institute of fundamental and applied researches at Osh state university and professor of department of algebra and geometry.
